

CHEN Siyuan

[Career Portfolio](#) | [Siyuan CHEN](#) Siyuanchen8@LN.hk | (+86) 16676778416 (+852) 54921198
8D, Building 89, Taoyuan Village, Nanshan District, Shenzhen City, Guangdong Province, China

EDUCATION

Lingnan University

Pursuing a graduate degree, majoring in Data Science.

Courses: Data Science Project, Foundation of A.I, Machine Learning for Business, Practical App of Deep Learning, Blockchain, Data Mining, Database Management, Healthcare Analytics, Programming for Data Science, Statistics for Data Science

Guangdong Polytechnic Normal University

Sep 2020-Jun 2024

Bachelor of Engineering in Mechatronic Engineering | GPA: 3.15/4.0

- Courses: Electric Circuit, Motor Control Technology, Engineering Materials, Mechanical Parts Surveying Practice, Engineering Mechanics, Analog Electric Technology, Electrical Control and PLC, Circuit Design Software, Mechatronic System, Embedded System Design, CNC Technology

Bachelor of Arts in Chinese Language and Literature (Minor) | GPA: 3.07/4.0

- Courses: Speech and Eloquence, Foreign Literature, Application Writing

INTERNSHIP

Shenzhen Zhongfujin Technology Co., Ltd.

May 2023-Sep 2024

Patent Documentation Editor

- Led the full application process for 3 patents related to semiconductor equipment: organized and converted technical details into application documents, cutting the cycle of patents from project initiation to submission by approximately 30%.
- Addressed patent rejection and amendment requirements, revised application documents multiple times in accordance with office actions, and optimized the definition of protection scope in claims, raising the one-time approval rate of responses to office actions for the 3 patents to 100%.
- Completed the final editing and filing of 3 patent applications and specifications, representative patent projects as follows:
 - A Separation Device for Backlight and Display Screen of Liquid Crystal Display Module, Patent No. 2026205534395
 - A Lifting Platform for Glass Substrate Transport Vehicles, Patent No. 202521423775X
 - An Auxiliary Disassembly Device, Patent No. 2026205533890

Electrical Engineer

May 2023-Jul 2023

- Independently disassembled the circuits of more than 10 faulty devices, recorded and marked circuit layouts to provide references for commissioning and maintenance, cutting the average troubleshooting time of equipment by approximately 40%
- Ensured circuit connections and equipment functions fully comply with specifications in strict accordance with electrical schematic diagrams

Shenzhen YanTe Technical Development Co., Ltd.

Jul 2024-Sep 2025

Sample Test Engineer

- Restructured the material retrieval and storage logic for over 200 small component samples including gears and tools by type and application, built an information-based ledger recording source and date data, and boosted material retrieval efficiency by approximately 50%
- Optimized the workflow of the component assembly verification process in accordance with design specifications, raising the pass rate to 98%
- Conducted quantitative design inspection experiments to optimize the fatigue resistance of diaphragm parts under bending deformation

SKILLS

- Professional Skills:
 - Electromechanical Control: Mitsubishi PLC Programming, CAD/SolidWorks Mechanical Modeling, KingView SCADA Software,
 - ABB Robot Studio Robot Simulation, Mastercam CNC Programming
 - ML: Python, C++, C#, Excel, RStudio, KNIME Analytics Platform, R studio, Weka, MATLAB,
 - In database management: MySQL Workbench (relational), MongoDB (non-relational)
 - UAV Simulation: ardupilot
- Language Proficiency: Chinese (native); English (advanced, IELTS: 6.0)
- Professional Qualification: Advanced Electrician Certification, Advanced Milling Technician Certification,

Certificate of Putonghua Proficiency Level 2 Grade A, Class C1 Motor Vehicle Driving License
